335151 – ORGANIZAÇÃO SOCIAL E PARENTESCO
Profa. Marcela S. Coelho de Souza
1/2007

ementa

O primeiro objetivo deste curso é propor uma leitura dos conceitos centrais dos dois principais paradigmas teóricos que dominaram o campo dos estudos antropológicos do parentesco até a década de 1970 — a teoria britânica da descendência e a teoria lévi-straussiana da aliança — que evidencie o enraizamento dessas teorias em uma concepção do parentesco culturalmente específica, que articula de um modo particular certas noções de gênero e pessoa e as oposições natureza/cultura, sociedade/indivíduo. Pretende-se explorar, em segundo lugar, como a concepção do parentesco enquanto "sistema", comum a ambas as teorias, foi sendo colocada em questão e vem hoje dando lugar a novas linguagens descritivas e analíticas.
